

Optiver Company Presentation, August 7, 2014 6.30 – 7.30 PM, IIT Bombay

We are Optiver, an international trading company, headquartered in Amsterdam. With more than 700 colleagues across four continents we constantly offer fair and highly competitive prices for the buying and selling of stocks, bonds, options, futures, ETF's et cetera. It is called 'market making'. We build markets and provide liquidity to international exchanges in Europe, the US and Asia Pacific. Optiver is above all a state of mind.

We are looking for you when you believe in daily improvement, when you like to be seriously rewarded for your performance and when you easily adapt to change and enjoy some humour and fun. We aim to be unrivalled in our industry, by being talented, creative and result driven. And it doesn't matter how we dress or what we believe in, as long as we exceed our and each others expectations.

Curious?

Visit our Company Presentation on August 7, 2014 between 6.30 – 7.30 PM.
